

LAURENCE JAN B. BAGAAN

laurencejan1431@gmail.com • 0994 924 7688 • Davao City, Philippines • renxen-dev.vercel.app

SUMMARY

Full-stack developer who designs responsive interfaces for web and mobile, then implements them. Works in Figma and builds in HTML, CSS, JavaScript, React, and Svelte, so designs reach production intact. Experienced with design systems, accessibility, and Agile collaboration.

WORK EXPERIENCE

Globe Telecom, Inc. - International Service Operations Center

March 2026 - June 2026

Frontend Web Developer Intern

Davao City

- Improved UI layout, responsiveness, and usability across internal web interfaces used by the operations team.
- Designed and built frontend features for internal systems and tools.
- Collaborated with supervisors and engineers to scope interface changes, review designs, and incorporate feedback before implementation.

Independent / Freelance

January 2024 - 2025

Technical Support Specialist (Part-Time)

Davao City

- Diagnosed and resolved desktop, printer, software, and peripheral issues for individual and small-business clients.
- Configured and troubleshoot Wi-Fi and LAN connectivity problems.

PROJECTS

MindaRide - Bus Route and Fare Platform

2025 - Present

Designer and Developer (solo)

mindaride.online

- Designed and built the full interface of a live public transport platform: trip search, route results, interactive map, and operator pages, used by commuters across Mindanao.
- Created the product's visual design system - color palette, typography, components, light and dark themes - keeping every screen consistent and meeting WCAG AA contrast standards.
- Designed mobile-first for one-handed phone use and carried the same design system into a native Android application.

Internship Management System (IMS)

2026

Designer and Developer

github.com/RenXenoverse11/IMS

- Designed interfaces for two user roles, intern and supervisor, each with its own dashboard, navigation, and permissions across time logging, task tracking, and request approvals.
- Built the design in Svelte and TailwindCSS on a Google Apps Script backend, including dashboard visualizations and PDF report export.

EDUCATION

University of Mindanao

2021 - 2026

Bachelor of Science in Computer Engineering

Davao City
